Inupama Caldera

Infotech College has the best foundational course (FIT) for the BIT course offered by the University of Colombo. The institute contains trained teachers with relevant qualifications and experiences. Infotech College is the best place to pursue your educational goals after your O/Ls and A/Ls.

Dhanuka Munasinghe

The Foundation of Information Technology program at Infotech College is made even better by the supportive student coordinators. They're always ready to help with any questions or concerns. Plus, the Learning Management System (LMS) is well-organized, making it easy to access course materials. It's a great place to learn.

Kavindu Gayantha

Infotech College's Foundation of Information Technology program is a great learning experience, and Mr. Hiruna is a fantastic lecturer. His passion for IT shines through in every class, and he's always available to answer questions. The program is well-structured, and Mr. Hiruna's dedication to our success is evident. I'm grateful for the knowledge I'm gaining.

Kaveesh Sandeepa

Choosing Infotech College for the FIT program by UCSC is a smart decision. With caring lecturers, helpful student coordinators, and excellent exam support, you'll have all the resources you need to excel.

Shevon De Silva

Best institute for follow Foundation of Information Technology course. Have qualified and friendly lecturers. They conduct live lectures along with the practicals. specially Spoken English practice classes. While many other institutions provide recordings for FIT course. Thank you INFOTECH.

Shashin Prabath

Infotech College's Certificate in Java course is a must for anyone interested in Java programming. The course content is comprehensive, and the instructors are experienced. The real-world applications of Java were a highlight, and I feel confident in my Java programming skills now.
